Continuation of 2. NOTE:

Continuation of 5. does NOT place the application in condition for allowance because: Applicant argues on page 18 that the device identifying information mentioned by the examiner refers to the identity of a particular device, not to network devices having a specific device identifying information as in the present invention. Examiner respectfully disagrees. Applicant's argument is not corresponded to the claimed limitation. As recited in lines 5-7 of independent claim 1, the device identifying information specifies for one or more network devices, but not for all network devices. Therefore, lijima teaches the claimed limitation.
